Often those in recovery need a boost in healing from trauma, relationship issues or other process addictions. Rokelle Lerner Workshops are intensive two-day seminars where individual attention is given to each participant. These workshops are not just a "rehashing" of issues. They offer a strong focus on resiliency and creating an action plan for the future that gives individuals a chance to move forward in their growth.

Oct 20-21

From Codependency to Healthy Boundaries

In order to move from reactivity to integrity in relationships, we need to remain connected to our courage, truth and power without being consumed by another. All too often, relationship and boundary issues escalate conflict, propels marital breakup and encourages relapse. This workshop offers specific techniques that allows individuals in recovery to develop the skills for successful relationships.

Oct 24-25

Healing Trauma, Healing Shame

Shame is a deep, debilitating emotion, with complex roots. After experiencing trauma, shame can haunt victims in a powerful and often unrecognized manner. This workshop will help to transform debilitating shame and self-loathing to a state of increased resilience, compassion and the potential of feeling the fullness of optimism and joy in life.

Oct 27-28

Learning to Let Go

Letting go is an act of powerlessness transformed into power. Loosening our tight grip on situations, people and things is the most difficult phenomenon that humans encounter. In this workshop participants will learn the skills needed to take the next step towards empowerment by practicing the dynamics of letting go, acceptance and ultimately forgiveness of self and others.
